

I Just Knew

Kellie Coffey

No stars fell from the sky first time I looked in your eyes
No moonlight shinin' down my feet never left the ground
No roses and a bottle of wine, no arrow or a neon sign
No heavenly angels sang on high so how did I know it was right

I just knew, positively certain that you were the one for me
I just knew, definitely sure in love that anyone could see
We were meant to be a part 'a history made for me and you
It was already set from the moment we met I just knew, oh

Don't get me wrong I could feel the heat
My heart beat fast, I could barely breathe
It was a genuine, pre-designed epiphany
That came over me

I just knew, positively certain that you were the one for me
I just knew, definitely sure in love that anyone could see
We were meant to be a part 'a history made for me and you
It was already set from the moment we met I just knew, oh

Maybe it's intuition but I've learned how to listen to my heart
'Cause it was you right from the start

I just knew, positively certain that you were the one for me
I just knew, definitely sure in love that anyone could see
We were meant to be a part 'a history made for me and you
It was already set from the moment we met I just knew, oh
Oh, It was already set from the moment we met I just knew
Yeah, I knew
