

# Feeling Tonight

Kellie Pickler

I fast sleep  
Lost you in a dream  
Oh I'm still awake  
Thinking of men, and if I'll show up  
Yeah I'll ever show up  
Would it be alright  
Fast settling, let's go  
Then we drove all night, past the city glowing  
We were all alone  
Yeah, we were all alone  
Would you, would you

Put your hand in my pocket  
Spin me around, spin me around  
Catch my heart before I drop it  
On the ground, on the ground  
Promise me you'll never stop it  
What you're doing right now  
Cause What you're doing right now is sunshine and midnight  
Hey I got a feeling  
Just what I'm feeling  
Summer fe-feeling  
Any kind of feeling  
You're feeling like feeling tonight  
How you feeling tonight

Would you fall for me  
Let go completely  
Write our names in our hearts  
Bright red graffiti on a white wall  
Would you run with me all night long  
Would you, would you  
Every woman on your lips  
Pull em out, pull me out  
Wanna get to you  
Tell me how, show me how  
Promise me you'll never stop it  
What you're doing right now  
Cause What you're doing right now is sunshine and midnight  
Hey I got a feeling  
Just what I'm feeling  
Summer fe-feeling  
Any kind of feeling  
You're feeling like feeling tonight

Put your hand in my pocket  
Spin me around, spin me around  
Catch my heart before I drop it  
On the ground, on the ground

Hey I got a feeling  
Just what I'm feeling  
Summer fe-feeling  
Any kind of feeling  
You're feeling like feeling tonight

How you feeling tonight

How you feeling tonight
