

# Makin' Me Fall In Love Again

Kellie Pickler

People will tell you that this kind of love will fade  
That being in love like this is only a phase  
But baby after all this time ain't nothin' changed  
All you gotta do is look at me that way

And there you go makin' me fall in love again  
There you go makin' me fall in love again

Oh, and I gotta tell you there's nothin' better  
You and me together, workin' on forever  
Everyday with you is always somethin' new  
You only gotta be yourself  
And there you go makin' me fall in love again

Baby sometimes you can say the craziest things  
I love how you don't care what nobody thinks  
You're highly original, totally in-typical, never change  
All I gotta do is look at your smiling face

There you go makin' me fall in love again  
There you go makin' me fall in love again

Oh, and I gotta tell you there's nothin' better  
You and me together, workin' on forever  
Everyday with you is always somethin' new  
Only gotta be yourself  
And there you go makin' me fall in love again

You're my sunshine, you're my rain  
Sure feels good to know you feel the same

I gotta tell you there's nothin' better  
You and me together, workin' on forever  
Everyday with you is always somethin' new  
Only gotta be yourself  
And there you go makin' me fall in love again

There you go makin' me fall in love again  
There you go makin' me fall in love again  
There you go, there you go makin' me fall in love again

Makin' me fall in love again  
(There you go, there you go)  
Makin' me fall in love again  
(There you go, there you go)  
Makin' me fall in love again  
(There you go, there you go)  
Makin' me fall in love again
