

# One Last Time

Kellie Pickler

I wanna lay in your bed  
Stare in your eyes  
Feel your heart beating with mine  
One last time, one last time

There won't be any tears  
That's not why I'm here  
Baby turn out the lights and let's disappear  
One last time, one last time

'Cause I'm not here to fight  
About who's wrong or right  
I just want your kiss  
I wanna feel just like this  
One last time, one last time

Your breath on my neck  
I don't wanna forget the smell of your skin  
Touch me again  
One last time

'Cause I'm not here to fight  
About who's wrong or right  
I just want your kiss  
I wanna feel just like this  
One last time, one last time

And when you fall asleep  
I'll kiss your cheek  
Whisper goodbye and I'll just leave  
One last time
