

# Dance with Me

Kelly Clarkson

Lights of London, lights of Spain  
Lights of New York, lights of LA, LA  
Streets of laughter, streets of pain  
The morning crashes, still the night remains  
The night remains

And when the music starts and the lights go down  
We will all be found  
No one's fighting anyone, we're all dancing on the ground

C'mon and dance with me  
C'mon and dance with me  
Feel the music like a lover's kiss  
Feel the rhythm like a warm embrace  
C'mon and dance with me  
C'mon and dance with me  
C'mon and dance with me  
I'm wide awake, yeah

It's 4 AM and the room won't stop  
My heart is pounding, how your body rocks  
Your body rocks  
My lips, they quiver on your skin  
Let's take this dance and just breathe you in  
Breathe you in

And when the music starts and the lights go down  
We will all be found  
No one's fighting anyone, we're all dancing on the ground

C'mon and dance with me  
C'mon and dance with me  
Feel the music like a lover's kiss  
Feel the rhythm like a warm embrace  
C'mon and dance with me  
C'mon and dance with me  
C'mon and dance with me  
I'm wide awake, yeah

Come on, come on and dance with me [x8]

C'mon and dance with me  
C'mon and dance with me

C'mon and dance with me  
C'mon and dance with me  
Feel the music like a lover's kiss  
Feel the rhythm like a warm embrace  
C'mon and dance with me  
C'mon and dance with me  
C'mon and dance with me  
I'm wide awake, yeah

C'mon and dance with me  
I'm wide awake, yeah
