I Want You

Kelly Clarkson

Hot temper with the shortest fuse You're such a mess with an attitude You're workin' hard but you're payin' more You never talk 'cause you don't have to You gotta job but you hate the man Who takes it all like 'Uncle Sam' I want you I want you

Outta gas so you walk for miles To pick me up in your warn out shoes You never settle, never take too much You count on me just like I count on you Kiss me, like when I first saw you You figured out I couldn't be without you You I want you [3x]

No one else will do (I want) No one makes me smile (I want) No one gets me how (I want) No one else is you

I want you [4x]

You're so hot tempered With the shortest fuse You're such a mess And with an attitude You I want you [3x]

No one else will do (I want) No one makes me smile (I want) No one gets me how (I want) No one else is you

I want you [5x]

You and me walkin' together Screwing up for worse or for better You I want you
