

Low

Kelly Clarkson

Everybody's talking
But they don't say a thing
They look at me with sad eyes
But I don't want their sympathy
It's cool you didn't want me
Sometimes you can't go back
By why'd you have to go
And make a mess like that
Well I just have to say before I let go

Have you ever been low
Have you ever had a friend that let you down so
When the truth came out
Were you the last to know
Were you left out in the cold
'Cause what you did was low

No I don't need your number
There's nothing left to say
'Cept I never thought it'd
Hurt this much to be saved
My friends are outside waiting
I've gotta go

Have you ever been low
Have you ever had a friend that let you down so
When the truth came out
Were you the last to know
Were you left out in the cold
'Cause what you did was low
What you did was low
What you did was low
What you did was low

I walk out of this darkness
With no sense of regret
And I go with a clear conscience
We both know that you can't say that
This to show for all the time I loved you so

Have you ever been low
Have you ever had a friend that let you down so
When the truth came out
Were you the last to know
Were you left out in the cold
'Cause what you did was low

Have you ever been low
Have you ever had a friend that let you down so
When the truth came out
Were you the last to know
Were you left out in the cold
'Cause what you did was low

Have you ever been low
Have you ever had a friend that let you down so
'Cause what you did was low
