

# Europe

The Kelly Family

Once upon a time  
There was a family  
Singing through the streets of Europe  
Singing their dear heart-songs

They went with open heart to every corner  
Every street, every land, every town through Europe

Then came along a young man  
Saying what can I do  
To help you through  
To help you through my dear Europe  
He came through the rain  
Through the storm, through the sorrow  
Through the hard times we had  
The prince of Europe

They went with open heart to every corner  
Every street, every land, every town through Europe

So he knocked on the door  
The door of my heart  
He won my heart, he won my love  
And my fidelity, my prince of Europe  
So here I am  
Your wife forever  
I'm on my knees  
I promise you love  
I promise you love with full fidelity  
My prince of Europe

They went with open heart to every corner  
Every street, every land, every town through Europe
