

Make a Song with Me

The Kelly Family

Make a song and make it better, dance the world around it's better

Make a song with, sing this song with me

Take your life and make it better, in this world it is a part of better

Let your soul not freeze, leave your soul to sing

Don't let it go, don't let it go, I don't know what I mean

I don't know, if you can see what I mean

Try one again, try it with me

I only know this world it's worth to be free

Make a song...

And when you're down on the ground, be with me around

with your friends and do you'll be around with your friends

Start once again, start with old strength, follow the road,

til the end of day, and follow the road, til the end of day

Make a song...

Winning this life, win every point, make day by day, day by day, as

you go

Make day by day, day by day and go

And when you're won, as number one,

don't forget those days your friends

Make a song and make it better, dance the world around it's better

Make a song with me, sing this song with me

Make a song and make it better, dance around the world it's better

Make a song with me, sing this song with me

Take your life and make it better, in this world it is a part of better

Let your soul not freeze, leave your soul to sing

Make a song and make it better, dance the world around it's better

Make a song with me, sing this song with me
