Forgive me father for I've sinned I know your mercy has no end Save me from this state I'm in I drifted on again

A greater love I will not find Your son you gave up for mankind Kneeling down before the cross Now I'm no longer lost

Oh God, oh God you give me so much love Oh God, oh God you saved me through your blood

I'm thirsty, yes, I thirst for you You know me better than I do You rescued me before I drowned A lost sheep has been found

Only truth will set me free So holy spirit come to me Take my life into your hands Whatever that demands

Oh God, oh God you give me so much love Oh God, oh God you saved me through your blood So much love, bless my soul, eternal life

Be careful be careful

Oh God, oh God you give me so much love
Oh God, oh God you saved me through your blood
Oh God, oh God you give me so much love
Oh God, oh God you saved me through your blood
So much love bless my soul eternal life
