

Strange World

The Kelly Family

Flowers and lights are taking my feet off the ground
And I'm flying speeds completely unknown to man
No one can help me once I'm off to dreaming time
I've entered that world and I'm on my own
And I feel it all right

It's a strange, strange world
That I live in
It's a strange, strange world
At night
Mama Mary, what you got cooking for me this time
I swear I saw the devil running across the room last night
Doctors and dioxine ain't gonna medicate me, no
Darling in your arms I'll be fine with a cup of tea

Well I, I'm a paranoid schizophrenic being
What about the monkey talking nonsense on TV
