The Kelly Family

I came down to see you  
but you were never there  
you were always lonely somewhere  
I came down to love you  
but you were never there  
but you're always parting somewhere

Hold on, don't leave me lonely  
Hold on, don't leave me lonely  
hold on, don't go without me

Tell me what's the game now  
'cause i'm feeling kind of jealous  
you're going out with friends now somewhere

I'm gonna get my guitar  
and strum down all the pain  
i think i'm going crazy, beware

Hold on, don't leave me lonely  
Hold on, don't leave me lonely  
hold on, don't go without me  
I'm gonna let nobody, gonna let nobody love you  
Gonna let nobody love...

Thunder bloody bloody thunder  
bloody thunder is on its way (4x)

I came down to see you  
but you were never there  
you just left me lonely somewhere

Hold on, don't leave me lonely  
Hold on, don't leave me lonely  
hold on, hold on...  
hold on, don't leave me lonely  
hold on...

I'm gonna let nobody, gonna let nobody love you  
Gonna let nobody love you...
