

## Too Many Ways

The Kelly Family

1. Too many ways, too many sides  
Too many words, too many dreams  
Too many lows, too many highs  
Too many things, we wanna know

2. Why do we sing, why do we dance  
Why do we stay, why do we go on  
Why do we cry, why do we smile  
Too many things we wanna know

R: He became a father of many children,  
And to others he gave his love away  
And took them in a world in trouble  
He became simple day by day

3. When do we know, when do we see  
When things are right, when things are wrong

That's why we sing to find ourselves  
So many things we wanna know

R: She became a mother of many children  
And to others she gave her love away  
And took them in a world of trouble  
She became simple day by day
