Leavin' Blues

Kelly Joe Phelps

I wanted to leave it ya see But I stays way too long Wanted to leave it ya see But stays way too long Well the girl that I'm loving Took that westbound train and go

Well the world is so foggy And I can't see where I go And the world is so foggy I can't see where I go Gonna take me so long to make it I have to drive so slow

Gonna take my breakfast here Eat my supper in Mexico I'll take my breakfast here Eat my supper in Mexico Say goodbye I won't see you no more Say goodbye I won't see you no more

I wanted to leave you see But I stays way too long I wanted to leave you see But I stays way too long.

Say goodbye Won't see ya no more
