

Love Me Baby Blues

Kelly Joe Phelps

Drive down baby
Like showers of rain
Can't you hear my fair girl
Call my name
Can't you hear my fair girl call my name?
She calls so loud, it's so plain

I walked on down to the station
Tears falling down
I got some news this morning
My baby left town
I got some bad news
My baby left town

She took my money
She got my clothes
Rolling down the road
But I wonder why you go
I know your going down the road
But I wonder why you go
Come on back, won't you love me again

Well my rooster crows
Down in France
Why won't the other guy
Lend me another chance?
Why won't that guy lend me a chance?

Treat me dirty
You treat me mean
I know you've done me clean
Why won't you come back home and
Love me again?
Come back home, why won't you love me again?
