Love Me Baby Blues

Kelly Joe Phelps

Drive down baby Like showers of rain Can't you hear my fair girl Call my name Can't you hear my fair girl call my name? She calls so loud, it's so plain

I walked on down to the station Tears falling down I got some news this morning My baby left town I got some bad news My baby left town

She took my money She got my clothes Rolling down the road But I wonder why you go I know your going down the road But I wonder why you go Come on back, won't you love me again

Well my rooster crows Down in France Why won't the other guy Lend me another chance? Why won't that guy lend me a chance?

Treat me dirty You treat me mean I know you've done me clean Why won't you come back home and Love me again? Come back home, why won't you love me again?
