

Rosie

Kelly Jones

capo IV

Rosie helped kids stay alive
Gave them the drugs so they didn't die.
She cleaned up their mess as they wept and they moaned.
She got paid so little she rented her home.
Angel face with a strength of a tower.
Worked everyday, every minute, every hour.
When she wasn't on the ward she was traveling on the train.
Through the wind, and the sun, and the snow and the rain

R: Oh Rosie,
 We thank you again
 Oh Rosie,
 We thank you again

Works all day no time to eat.
Running back and fore to help children see.
We piss up a wall all the poison we take.
She barely gets out not to dine or to drink.
I tip my hat to the angels on the ward.
You're in my heart with love forever more.
I thank you now for saving my girl.
And bringing back to her own little world.
