

# Everything's Alright

Kelly Osbourne

10,000 hours to go before we're kicking it  
all night  
feels like my mind will explode  
If we don't bust it out tonight

Fuck that bullshit  
Need to relax  
Get my head straight  
Put my face on  
Shove my hair up  
My ass is in gear and now  
Everything's alright

Grab all my shit and just go  
Got no worries feeling fine  
Pull up to this spot that I know  
and now I finally feel alive  
Well the daytime's gone now

Well the room's all full now  
People crushing  
Noise is hurting  
ears are humming  
My back's sweating  
I'm losing my mind  
I'm losing my mind hard  
Everything's alright

Now lights are swimming  
Stomach's heaving  
Bed is spinning  
Crotch is itching  
Hands are feeling  
Legs are kicking  
And now, now, now  
Everything's alright
