

Uh Oh

Kelly Osbourne

My hands are down
I can no longer masquerade
You're just like poison in my veins
Killing me inside
I know you tell everyone i'm
Whats her name

But your story tends to change
When you look in my eyes

UH OH
You really need to go

Don't waste another minute of my precious time

The social strain
Is watching you out with all your friends
With the disgust that you pretend when i walk on by
You wear it well
Treating me like someone you dont know
But then you call me on the phone
To tell me goodnight

UH OH
I think i better go

Before i turn this love into a crime
UH OH
You really need to go
Don't waste another minute of my precious time

You turn me inside out
You can follow me around
I dont care what you do
Just as long as you know i'm thru

UH OH
I think i better go
Before i turn this love into a crime
UH OH
You really need to go
Don't waste another minute of my precious time
UH OH
I really need to go
Don't wanna think about when you were mine
