

# Don't Say Goodbye

Kelly Price

Oh, baby  
I, I, I don't wanna say  
Don't wanna say  
Don't wanna say  
Mmm, Hear me baby

- Don't say goodbye  
I'll love you for my life time  
Without you there is no me  
Mmmmm, don't say goodbye  
Cuz soon it will be all right  
Oh baby, can't you see

Baby, hold on  
To what you know is real  
We've had our share of problems  
But they can't change the way I feel  
We're gonna make it through the rough times  
Together, you and I  
I've been loving you too long  
So stay with me  
Don't say goodbye

Baby hold on  
It won't be very long  
All these problems we've been through  
They're making our love strong  
We've gotta hang in there  
In just a little while  
For every tear we've cried  
We will wear a smile  
Don't say goodbye

(Cuz I know)  
I know that we can make it  
If we only try  
Don't worry 'bout a thing  
You gotta believe me  
This love was meant to be  
Don't ever say goodbye  
Goodbye  
I promise to love you baby, please

Please stay with me baby  
I don't wanna hear you say  
Cuz I would go crazy  
If you weren't with me  
Please stay with me baby  
I don't wanna hear you say  
Cuz I would go crazy  
If you weren't with me  
And baby can't you see

[Repeat 1 until fade]
