

In Love At Christmas

Kelly Price

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you a love brand new
We fell in love at Christmas

It wasn't Valentine's Day
Or the first day of spring
Summertime may be fine
But love didn't find me

Till the snow began to fall
That's when everything changed
'Cause that's when I found you

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you a love brand new
We fell in love at Christmas

I remember when holidays were blue
Shopping trips, money spent every year de'ja vu
But now I reminisce on a special gift
In you I found it happened one silent night

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you a love brand new
We fell in love at Christmas

Just one year ago when your love found me
Now my life has changed and it's amazing
'Cause I prayed for something special to come
But I never dreamed it would be your love

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you a love brand new
We fell in love at Christmas

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you a love brand new
We fell in love at Christmas

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you a love brand new
We fell in love at Christmas

T'was a silent night, a midnight clear
Was no Santa Claus and no reindeer
Only me and you
