

# In Love At Christmas

Kelly Price

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you a love brand new  
We fell in love at Christmas

It wasn't Valentine's Day  
Or the first day of spring  
Summertime may be fine  
But love didn't find me

Till the snow began to fall  
That's when everything changed  
'Cause that's when I found you

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you a love brand new  
We fell in love at Christmas

I remember when holidays were blue  
Shopping trips, money spent every year de'ja vu  
But now I reminisce on a special gift  
In you I found it happened one silent night

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you a love brand new  
We fell in love at Christmas

Just one year ago when your love found me  
Now my life has changed and it's amazing  
'Cause I prayed for something special to come  
But I never dreamed it would be your love

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you a love brand new  
We fell in love at Christmas

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you a love brand new  
We fell in love at Christmas

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you a love brand new  
We fell in love at Christmas

T'was a silent night, a midnight clear  
Was no Santa Claus and no reindeer  
Only me and you
