

Praise In Action

Kelly Price

I put my praise in action
Praise!
I'm gonna lift my hands

The key to victory is to send judah 1 st so

I put my praise in action
Praise!
I'm gonna lift my hands

Like moses during battle he had to stand
Assumed the praise posture and he raised his hands
So when i'm in a war and when i'm going thru
I know that i can win
If this is what i do so

The devil doesn't like it when you gave god the praise
He'd rather hear you murmur
He wants you to complain
But know the battle's fought
The victory is won
Now exercise your faith
And praise him like its done and

Just put your praise in action
Praise!
C'mon clap your hands

Just clap your hands oh ye people
(break into a choreographed rhythmic clap for an 8 count)
The key to victory is to send judah 1 st so

Just put your praise in action
Praise!
C'mon clap your hands
(modulate)

Praise is a weapon and this a fight
But you will never win with your hands at your side
So throw your hands up
Change the way you stand
The victory is promised
So praise him in advance

Now put your praise in action
Praise!
Time to do your dance

The key to victory is to send judah 1 st so

Now put your praise in action
Praise!
Time to do your dance

(praise dancers and steppers go into their routine....see treatment)

I put my praise in action

Praise!
With singing praise!
With shouting praise!
With jumping praise!
With dancing praise!
With stomping praise!
With clapping praise!
With screaming praise!
With praise praise!
With praise praise!
With praise praise!
With praise praise!

With praise... praise!

I'm gon' praise his name!
