

# Take Me To A Dream

Kelly Price

Love of my you are  
Sunlight, my shining star  
All of the world to me  
All I could ever need  
Lately I can feel you've grown away from me  
And inside I pray it's not too late to find a remedy

Don't wanna live a lie  
I don't wanna say goodbye  
So how can I start again  
And how will my heart mend  
Here I am alone with only memories  
So I'm searching just to find a way to keep you here with me

So I close my eyes  
And I go back in time  
When our love was strong  
Before our hearts went wrong  
I keep holding on to how it used to be  
So lay me down and take me to a dream

Dreams that you're holding me  
Dreams that won't ever be  
Visions of loving you  
Wanting to make them true  
I find myself believing you'll come back to me  
Cause I'm trying not to feel the pain, that loneliness can bring

So I close my eyes  
And I go back in time  
When our love was strong  
Before our hearts went wrong  
I keep holding on to how it used to be  
So lay me down and take me to a dream

It's so hard to make it through the day without you  
So I pray for night to dream you're here with me, with me

So I close my eyes  
And I go back in time  
When our love was strong  
Before our hearts went wrong  
I keep holding on to how it used to be  
So lay me down and take me to a dream  
So lay me down and take me to a dream
