## While You Were Gone

Hmm, whoa, yeah, oh baby, hmm, oh I read you wrong You said you'd only be away a while But the days turned into weeks And all the weeks into miles Baby why? You could've told me you were telling me goodbye Could've come clean and let me walk away in style, oh Funny thing is While I was missing you While I was figuring what I was gonna do [1] - I got wise, I got hip I caught on to your tricks I got over it real quick, yeah baby While you were gone Now I'm cool, can't you tell Feel so good about myself A funny thing happened to me baby While you were gone Oh, you looked surprised Like no one ever left you and survived, no Well leaving me alone has kind of opened my eyes Baby you, you gave me the time to find somebody new And I found strength inside me I never knew, oh Funny thing is While he was holding me While he was showing me how it's suppose to be [Repeat 1] [Repeat 1 with ad-libs by Kelly] Didn't freak, didn't cry I just held my head up high I learned how to say goodbye While you were gone Had time on my hands Baby don't you understand A funny thing happened to me baby While you were gone Had nothing but time on my hands Learned how to understand boy Got over you, got over you, oh While he was holding me While he was showing me how it's suppose to be Oh baby [Repeat 1] While you were gone, oh

Learned to lie, learned a lesson

## **Kelly Price**

Learned how to get along, learned how to be strong Learned how to love myself, while you were gone, ooh, oh
