

# You Complete Me

Kelly Price

It's been a long time since we started  
And all of the hurting we've been through I find that I still i  
n love with you  
Searchin' and searchin', looking for better  
Greener pastures never grew cause everything I needed I already  
had with you

Been around and tried to find someone to replace the love that  
made us one  
No one else could ever make me whole, you for me and only me fo  
r you  
Come to me and we can start things new, heaven knows the way th  
at I miss you  
Baby please don't take your love from me,  
Only you can make my life complete

I've learned a lesson, never to let the one you love slip away  
Oh baby, it took this tragedy  
For me to see that you are the only one, baby you complete me

I never knew a love, until you came and showed me what it was  
And I'll never let you go, never again  
I promise you this time, forever  
We'll make it last and things will be better  
Better than before
