

# Red Wine

Kelly Rowland

What you know about lovin me til the sun comes up  
Then the sun goes down  
Can you give me that kinda love that won't give up  
Never let me down  
I discover  
True  
Love exists  
Its common sense  
I've got confidence  
In love [repeat]  
Your love brought us together  
But love won't wait  
Forever  
Let go of  
Whatever  
Got you thinking ever  
The storm yeah we can weather  
Woo ohh hoo ooh ooh

You got me over here pouring my heart out  
Saying whatever  
I shed some tears with my cuzzo  
Oh yeah oh yeah  
Playing whatever  
I discover  
True  
Love exists  
Its common sense  
I've got confidence  
In love [repeat]  
Your love brought us together  
But love won't wait  
Forever  
Let go of  
Whatever  
Got you thinking ever  
The storm yeah we can weather  
Woo ohh hoo ooh ooh
