This Is Love

Kelly Rowland

Can u describe the moment When two people fall in love Some say the clouds will spin in circles And the rain will turn to dust The poor will start to laugh Even the rich will start to cry It can sneak up like a soldier It can wake you up at night That's what i feel when I'm standing here with you It's what my heart has sworn to be true This is love It's writin on my face It's the way i lean my body towards you Even when I'm a 100 miles away This is love like a diamond in the sand It took so long to find you I can't wait another day to say This is love ohh this is love yeah You take my imperfections And turn them into art If i could change one thing about you There would be no place to start You are safety without numbers You are dangerously wild But you're sweeter than rock candy And you ease my inner child That's what i feel when i'm standing here with you That's what my heart has sworn to be true This is love It's written on my face It's the way i lean by body towards you Even when i'm a 100 miles away This is love like a diamond in the sand It took so long to find you I can't wait another day to say This is love ohh yeah No i'm no easy angel I'm moody like the wind I am impatient, complicated I am fragile deep within But you're no fool And i'm no little girl Have we not found there is love in the world? This is love I said it's written on my face

It's the way i lean my body towards you Even when i'm a 100 miles away This is love like a diamond in the sand It took so long to find you I can't wait another day to say This is love

oh this is love, love, love this, this is love
