

If I Left You

Kelly Willis

If I left you, I wouldn't stay gone so long
If I left you, I'd worry how you got along

But you left me alone here in my misery
That's not something I would do if I left you

If I left you, I wouldn't go out on the town
If I left you, I'd drag my heart along the ground

But you left me alone here in my misery
That's not something I would do if I left you

Your actin' like I never cross your mind
I'm hold up feelin' like I'm losin' mine

If I left you, I'd call you every single day
If I left you, I'd wonder why I went away

But you left me alone here in my misery
That's not something I would do if I left you, if I left you
