Sweet Little One

Kelly Willis

Sweet little one, you are so blue
Just let my love take care of you
We'll be alright now, the day's through
Sweet little one

I won't pretend that it's not hard
But there are days that break my heart
But you can't quit now, it's not who you are
Sweet little one

Sweet, sweet little one
Don't you gray the sun
It's only comin' up
To keep from bein' down, yeah

Just let it roll up your back
Don't let 'em push you off your track
Keep on walkin', babe, don't look back
Sweet little one

Sweet, sweet little one
Don't you gray the sun
'Cause it's only comin' up
To keep from bein' down, yeah

Baby, you've been fightin' it too long
Oh baby, don't you know it can't go on'
Things will change, things will change

Sweet, sweet little one
Don't you gray the sun
'Cause it's only comin' up
To keep from bein' down, yeah
