

Talk Like That

Kelly Willis

You talk like that
And I don't know where you're from
But oh how it takes me back
When you talk some

When you're movin' around
You can lose sight of your past
It's way back beyond the last town
And you're movin' too fast

I can hear my father
And his Oklahoma drawl
I hear my grandmother
Oh, I can hear them all

And I hope you talk like that
And I know where I'm from
And oh how it takes me back
When you talk some

If anyone asks of me
Well, I don't have a home
And it's more than likely
I'll always be on my own

Now I hope you talk like that
And I know where I'm from
And oh how it takes me back
When you talk some
Lord, how it takes me back
When you talk some
