Kelsea Ballerini

Captured my attention, make my heart stop and listen When you look my way Blue jeans and a ball cap, thinking that you're all that And I'm thinking the same You got that something in your eyes, I think about it all the time If you ever wonder if I wanna make you mine Yeah, boy I'm digging what you're doing Yeah, boy I'm trying to keep it cool But you're making it hard, I'm wishing your arms Were wrapping me up tight Yeah, boy You shine and you can't even help it Yeah, boy Your eyes could make the moon jealous And if you wanna know if I wanna be your girl tonight Yeah, boy Every song that's playing gets me thinking about you, baby And the way you roll So let's put down the drop top, burn a little blacktop Off of that road Baby, what we waiting on?
