

Be Mine For Christmas

Kem

We could go outside and play in the snow
I could make a little fire we could break it down eskimos
Simply state it there's no place I rather be
It's christmas time for you and me girl

Spread love peace and joy throughout the world
While every little boy is trying to find something for his favourite girl
Yes baby your santa clause is on his way
He'll be keeping you satisfied Christmas day
What can I do, to make your dreams come true
For christmas

What can I bring, to make your heart sing
So you'll be mine
For Christmas
Have a merry Christmas babe
Hey girl

They'll be jingle bells for you and me
We'll snuggle by the christmas tree
A celebration of green and gold
We'll sing along tonight King Cold
Get tiding to all and to all good cheer
I just wanna know my baby is here
Keeping me warm all through the night yea
I got an angel by my side

What can I do to make your dreams come true
For Christmas
What can I bring to make your heart sing tonight
So you will be mine

Christmas is finally here
I'll be yours anytime of the year
And I would do anything
All I want is the joy you bring
I'll give you my heart wrapped up in a bow
Fa la la la all the way we go
It's Christmas when I'm loving you

What can I do to make your dreams come true
For Christmas
Be mine for Christmas
What can I bring you girl
I wanna make your dreams come true
So you'll be mine
I wanna be yours
Will you be mine babe?
Yes be mine
For Christmas
Be mine for Christmas
I just wanna love you girl
I will do anything baby
We can cuddle over by the fire
Yeah I like that
Have a merry Christmas girl
You rarely get that don't you

You said anything
Girl I'll give you anything
