

## Cherish This Moment

Kem

The sun sends us another day  
I wipe the frost from my window  
Not quite like it used to be  
Even the clouds are in a hurry  
The kids gotta get off to school yeah  
We can't deny them their learning oh no  
Never gave a damn about the morning news  
Those affairs aren't my worry  
I'm not concerned if the minimum wage is at an all time low  
Shame has defamed our economy  
I'm not overwhelmed with gloom even though it's sad girl  
'Cause after lovin' someone like you  
What in the world could be so bad  
No guarantees that this time will come again baby  
So cherish this moment  
No guarantees that our love will be like this again girl  
So let's cherish this moment baby  
We may never love again on earth  
So when it comes lets embrace it  
And no matter how hard it's been hmm babe  
I don't believe we can replace it  
Forget my troubles when you're around baby  
Even though it might look scary yeah yeah  
I'm so happy that we kind of settled down girl  
Lovin' you is primary  
I'm not concerned if the minimum wage is at an all time low  
Shame has defamed our economy  
I'm not overwhelmed with gloom even though it's sad  
'Cause after lovin' someone like you  
What in the world could be so bad  
No guarantees that this time will come again  
Oh let's cherish this moment  
No guarantees our lips will meet quite like this again girl  
So let's cherish this moment  
There are no guarantees that we will live as free as we are right now  
Cherish this moment  
No guarantees our love will drift like this again girl  
I want to share this moment [adlib]  
I want to stay here in this moment baby  
There's no better place to be [out]
