

Drown Little Girl

Kemopetrol

Drown little girl
You're a stone in deep water
What made you sink
I can't remember
There's so much happening

It leaves me cold
It leaves me cold
It leaves me cold

I keep seeing you
Everyday now on my TV
And when I get bored
I turn it off, you don't exist anymore

It leaves me cold
It leaves me cold
It leaves me cold

It's in my face
Those shiny satellites
These sad commercials
And I've shit concern
Thrown up compassion
I've got nothing left to give

It leaves me cold
It leaves me cold
It leaves me cold
It leaves me cold
It leaves me cold
It leaves me cold
It leaves me cold
