

# Everything That Surrounds Us

Kemopetrol

Is it for real - the thing that you do  
Always smile at everything that surrounds us  
Do you feel that everything's beautiful here  
Or that everything's alright

'Cause you like, you like  
You like everything that surrounds us  
Do you like, you like  
You like everything that surrounds us?

The more you smile the more I feel taken for a ride  
I'm confused deep inside  
Do you see something I'm not able to see  
Could it be that I should change my beliefs

'Cause you like, you like  
You like everything that surrounds us  
Do you like, you like  
You like everything that surrounds us?
