

Everything That Surrounds Us

Kemopetrol

Is it for real - the thing that you do
Always smile at everything that surrounds us
Do you feel that everything's beautiful here
Or that everything's alright

'Cause you like, you like
You like everything that surrounds us
Do you like, you like
You like everything that surrounds us?

The more you smile the more I feel taken for a ride
I'm confused deep inside
Do you see something I'm not able to see
Could it be that I should change my beliefs

'Cause you like, you like
You like everything that surrounds us
Do you like, you like
You like everything that surrounds us?
