

# Goodbye

Kemopetrol

You can call me anything  
Now that we are even  
And it's oh so quiet  
Quiet as if the both of us were afraid to say  
The only thing there is to say  
It'll be tomorrow if not today

But still I see you the way I used to  
Beautiful, impossible  
You had my heart removed by laser  
All these feelings wrap their arms 'round me

You can tell me anything  
Now that it is over  
And we can laugh about it  
And we laugh about all the fun  
We laugh about everyone  
We laugh about all the things unsaid, undone

But still I see you the way I used to  
Beautiful, impossible  
You had my heart removed by laser  
All these feelings wrap their arms 'round me
