

Without Listening

Kemopetrol

Put your ear against the wall
Can you hear the world?
I believe I can, without listening
Put your ear against the wall
Can you feel it breathing?
Trying to smoke us out but we'll always be here

Fly me to the moon
You know I have some happy thoughts left
I used to be perfect but then came the x-ray
Fly me to the moon
Introduce me to the flag of the USA
Hey I found the footprint
I'm being sucked in

And I think I know what you think that I know
And I come at the same time that I go
And I live a dream and can't fall asleep
Without you myself together I couldn't keep
