

# Along The Longest Way

Kemuri

Today i have you, yesterday i was alone  
Some kinda magic happened  
Logic can not explain

(Wow! Wow! Wow!)  
Do we know why we met? No!  
We gotta find that out!  
Holding our hands tight!  
Light the darkest road!

Sunshine, cold rain, sow and muddy roar  
We might fall but don't be afraid

(Wow! Wow! Wow!)  
Now i have you and you have me  
We are meant to be together  
Step by step with the happiest sound!

We are gonna make our dreams come true  
We might be walking slow like turtles  
Break on through the giant wall  
One life is short, let's believe in ourselves

Let's celebrate! Today is the day!  
Together walk along the longest way!  
Stars are celebrating  
Let's just leave the past behind!  
Together walk along the longest way!

The longest night brought the longest dream  
Time won't let us go back  
But it will never stop, so why don't we just walk,  
Face up and walk straight with the pride!!

We are gonna make our dreams come true  
We might be walking slow like turtles  
Break on through the giant wall  
One life is short, let's believe in ourselves

Let's celebrate! Today is the day!  
Together walk along the longest way!  
Stars are celebrating  
Let's just leave the past behind!  
Together walk along the longest way!

Along the longest way!  
Along the longest way!  
Along the longest way!
