

Lights & Shadows

Kemuri

You look really good when ya talk 'bout
You look really good when ya talk 'bout
when ya talk about your dream

You look terrible when you're being
You look terrible when you're being
when you're being negative

You know that you wanna be lookin' good
And fresh as long as you live your life
(Wake up!) Don't waste your time!

You make me happy when you treat me
You make me happy when you treat me
when you treat me with respect

You make me angry when you say
You make me angry when you say
You say something negative

Get a life! Everything is possible!
When you believe in somethin' strongly!
Believe me! Oh! We gotta go! Now!

Lights & Shadows live in our heart
Some know, Some just ignore
Lights & Shadows live in our heart
Some deal, Some just neglect

Lights & Shadows live in our heart
Some know, Some just ignore
Lights & Shadows live in our heart
Some deal, Some just neglect

Lights & Shadows live in our heart
Lights & Shadows live in our heart
Lights & Shadows live in our heart
Lights & Shadows live in our heart
