

## I Am A Fool

Ken Boothe

I am a fool  
To love someone who don't love me  
I am a fool  
To love someone who don't care  
She loves another man  
It's plain to understand  
That when I'm around  
She just pretends

I am a fool  
For I break the golden rule  
I am a fool  
To give her everything that's true  
She loves another man  
It's plain to understand  
That when I'm around  
She just pretend, now  
Alright

I am a fool  
For I break the golden rule  
I am a fool  
To give her everything that's true  
She loves another man  
It's plain to understand  
That when I'm around  
She just pretends  
Oh, what a fool  
Fool in love
