

# We're On Our Way

Ken Hensley

It started out in London  
In the back of Benny's pub  
We hit the road and ran the miles  
Must have played ten thousand clubs

From Liverpool to Soho, from Hamburg to Berlin  
The people were there waiting for the big show to begin  
And it looked like we were headed for a really crazy ride  
But we had rock'n'roll on our side

We're on our way, no turning back  
To rule the world, we can't go wrong  
We're on our way to fame and fortune  
One million miles, ten million hearts  
One simple song

By the time we got to Boston  
We were learning how to fly  
And we got to write our story  
All across the endless sky

Everybody made us feel good  
They gave us platinum and gold  
This reckless band of rebels  
With a legend to be told

The ladies and the limos  
Were there ready for the ride  
With rock'n'roll to  
Take us through the night...
