

# Happy Song

Ken Laszlo

Go you can play the mix  
And get into the groove  
We have to dance the night together  
You wanna feel the heat  
And let your body move uh uh yeah

Oh babe blue I only want your company  
And I don't want to love another  
Everytime you look at me  
Uh uh yeah

Ta ta ta ta tara you will shake your body  
You gonna have to do uh uh uh  
Ta ta ta ta tara come on every body  
A happy song for you

We together  
Love me love me do  
We together  
Come on light my life for never bein' blue  
All the lucky days  
We together  
If you are okay I will be the same

Just by the music  
I will take you to paradise  
You're gonna dream all your devotion  
This is the only way  
To make you feel alright  
Uh uh yeah

Ta ta ta tara.....
