When I Fall In Love

Ken Laszlo

When the night is falling
And you want a place to go
I'll be waiting for you baby
But you don't knock at my door
Baby let me tell you
You're my man from making love
Every minute and every hour
Always deep inside my soul
Feeling the love

When I fall in love
I can give my heart
Getting close to you
And all the world have seen so fine
When I fall in love
I can dream of you
If you really wonder
Get the best of you
When the night is falling
I will give our love a light
Every minute every hour
Everyday for you and I
Now I have to tell you
That you broke my heart into
But you're gonna stay inside me
I'll be never feeling blue
Feeling the love
