

Johnny

Kendall Payne

Johnny shot to the moon
It's on the nightly news
There's nothing I can do
Johnny shot to the moon
Johnny's got something to say
Johnny's not, he's not coming down today
Johnny thought things would always be the same
Oh no, no, no things can't always be the same
Johnny shot through the roof
No one can get through
Come and see the proof
That Johnny shot through the roof
When you wake up in a war
Torn between your heart and head
Who will win, who'll be defeated?
Johnny, I quit keeping score
Now there's no one left to blame
No one left to leave you cheated
Johnny shot to the moon
I guess it's nothing new
It's sad to say but it's true
Johnny shot to the moon
