

Little Heart

Kendall Payne

Little frightened heart, how were you made?
When you look back on your life you will see great strength.
So don't you be afraid...

Little fainting heart, look how far you've come,
And you never would have guessed that you could be the best.
So don't you come undone...

We beat in time, We beat because,
We know the why, We beat for love,
We beat with hope that will not cease
Until every heart finds peace.

Little angry heart, why are you so mad?
Freedom comes when we forgive, it's the only way to live.
So let go of the past...

Little broken heart, with little broken wings,
Don't you give up on your dreams,
One day you will fly and we will hear you sing...
