

# Far From Here

Kendrick Lamar

A nigga so goddamn stressed out  
I feel like fuck everything right now  
See I've been broke too long, can't find a job to save my life  
But I'll be damned if I give 'em a handout  
See my pride is one thing I will not put aside  
I'm too proud to beg, I'm sorry Left Eye  
If I don't make it in life, motherfucker I tried  
What? Uh

You ever feel like nobody never understands you but you?  
Not your momma, your poppa, only person is you  
Not your brother, your sister, the only person is you  
You ever feel like nobody never understands you but you?  
Nobody, nobody but you  
So it feels like, like it's only you

So I'm feeling like I want to, I want to  
I want to, I want to go so far from here  
Very, very far from here  
I need to, I need to  
I need to, I need to go so far from here  
Very, very far from here

It seems like, you can't win for losing  
Whatever you're doing turns out to be "what-are-you-doing?"  
Sitting pursuing, but your time will soon come  
Nobody knows the position that you in  
But it's a million people out there that's going through the same thing  
That feeling, hard to explain  
When you just, just want to get away  
Something like

You ever feel like nobody never understands you but you?  
Not your momma, your poppa, only person is you  
Not your brother, your sister, the only person is you  
You ever feel like nobody never understands you but you?  
Nobody, nobody but you  
So it feels like, like it's only you

So I'm feeling like I want to, I want to  
I want to, I want to go so far from here  
Very, very far from here  
I need to, I need to  
I need to, I need to go so far from here  
Very, very far from here

Away from it all  
Take me out of Hell where only Heaven can visit  
The smartest astronomers, they won't even see my vision  
I'm stuck on the studio couch, now I'm thinking bout my daughter  
Times is getting harder, another beat is slaughtered  
Just press record or, seems like I need a mill' to keep my shit in order  
instead of problem solving  
From my hat to my shoes, spirit laced with pride  
Set some shit aside to help me wipe my teary eyes  
Reaching for the skies, pissing on a cloud  
Shitting on a bird's head, higher than a dread

as I fly through the galaxy, pain and the agony  
Nothing is surrounding me, living my life  
Though it's better to write  
Configuring my style to the streets, bring dark to the light  
So how you feel? My nigga, I keep it real  
A Schoolboy soon to be star, Mr. Lamar

So I'm feeling like I want to, I want to  
I want to, I want to go so far from here  
Very, very far from here  
I need to, I need to  
I need to, I need to go so far from here  
Very, very far from here
