

They say the government mislead the youth, youth, youth, youth
(Tell 'em when you went to the park and everybody came back and
...)

And welfare don't mean well for you, you, you, you
(What about when you tried to do a side for that but you...)

They tell me that my bill's past due, due, due, due
(Talk about the charge you got...)

And preacher man don't always tell the truth, truth, truth
(Do you believe in God? If you don't, it's cool)

(But) head is the answer, head is the future

Don't second guess yourself

(Don't tell them when you second guess yourself I need you in t
he kitchen now I forgot...)

Come on give me some help, yeah

Head is the answer, head is the future

Don't second guess yourself

Come on, give me some help

And I just wanna

And I just wanna

Straight up

Eyes with my head

And I can't use some help

Straight up

Head is the future
