

Loose Wires/Blink Radio

Kenna

Its written on your face now
You wanna be my muse
No resume necessary
You're too too too adorable
Not be like all the other

[Chorus:]
Loose wires
We have a connection
Unlike anyone
Loose wire
Positive and negatives been undone
Run for cover
Put your end on mine
And we'll have some fun
Loose wire
Put your end on mine
And we'll have some fun

Isn't it electric in here
I wanna know what its about
Isn't it amazing in here
I wanna know what your about

Wait a minute
Wait a minute
Wait a minute

All the hits that I've been missin'
Been around that world once before
Upside down right side up
Lookin' for that one
Ridin around with glossed over eyes
Affixed

[Chotu

Isn't it electric in here
I wanna know what its about
Isn't it amazing in here
I wanna know what your about

Cant you see the episodes
The renegades
With dirty ways
Dancin' to the break of day
Its tension in here
Cant you see the laser pass
Right through your glass
Don't have to ask
Its green as grass
And been passed
Its so thick in here
In here

[Chorus]

Isn't it electric in here
I wanna know what its about
Isn't it amazing in here
I wanna know what your about
